NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

THREE AND SIX MONTHS ENDED JUNE 30, 2024

1. Nature of Operations

Millennium Silver Corp. (the "Company" or "MSC") is incorporated under the Business Corporations Act of British Columbia. The Company is listed on the TSX-Venture Exchange and its primary business is the acquisition, exploration, and evaluation of mineral properties in Canada and Nevada, USA. The address of the Company's registered office and its principal place of business is Suite 202, 2608 Shaughnessy Street, Port Coquitlam, British Columbia, Canada, V3C 3G6.

These condensed consolidated financial statements have been prepared on a going concern basis, which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business. As at June 30, 2024, the Company has an accumulated deficit of \$23,671,842. During the period ended June 30, 2024, the Company has generated no revenues, incurred a net loss of \$65,220, and used \$22,927 of cash for operating activities. The continued operations of the Company are dependent on its ability to generate future cash flows or obtain additional financing. Management is of the opinion that it has sufficient working capital to meet the Company's liabilities and commitments as they become due, although there is a risk that additional financing may be required but will not be available on a timely basis or on terms acceptable to the Company. These factors indicate the existence of a material uncertainty that may cast doubt upon the Company's ability to continue as a going concern. These condensed consolidated financial statements do not reflect any adjustments that may be necessary if the Company is unable to continue as a going concern. Such adjustments could be material.

2. Statement of Compliance

These condensed consolidated financial statements have been prepared in accordance with International Accounting Standards 34, "*Interim Financial Reporting*", and based on the principles of International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and the interpretations of the International Financial Reporting Interpretations Committee. These condensed consolidated financial statements should be read in conjunction with the Company's annual audited consolidated financial statements for the year ended December 31, 2023, which include the Company's significant accounting policies, and have been prepared in accordance with the same methods of application.

These condensed consolidated financial statements have been prepared on a historical cost basis except for certain financial instruments, which are measured at fair value. In addition, these consolidated financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

3. Material Accounting Policy Information

(a) Principles of consolidation

These condensed consolidated financial statements include the accounts of the Company and its wholly-owned subsidiary, International Millennium Mining Inc. ("IMMI"), a Nevada corporation. Control is achieved when the Company has the power to govern the financial and operating policies of an investee, so as to obtain benefits from its activities. Subsidiaries are fully consolidated from the date on which control is transferred to the group until the date on which control ceases. All inter-company transactions and accounts have been eliminated on consolidation.

THREE AND SIX MONTHS ENDED JUNE 30, 2024

3. Material Accounting Policy Information (continued)

(b) Significant accounting estimates and judgments

The preparation of these condensed consolidated financial statements requires management to make certain estimates, judgments and assumptions that affect the reported amounts of assets and liabilities at the date of the consolidated financial statements and reported amounts of expenses during the reporting period. Actual outcomes could differ from these estimates. These consolidated financial statements include estimates which, by their nature, are uncertain. The impacts of such estimates are pervasive throughout the consolidated financial statements, and may require accounting adjustments based on future occurrences. Revisions to accounting estimates are recognized in the period in which the estimate is revised and future periods if the revision affects both current and future periods. These estimates are based on historical experience, current and future economic conditions and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Significant assumptions about the future and other sources of judgments and estimates that management has made at the consolidated statement of financial position date, that could result in a material adjustment to the carrying amounts of assets and liabilities. In the event that actual results differ from assumptions made, relate to, but are not limited to, the following:

Critical judgments

- The analysis of the going concern assumption, which requires management to take into account all available information about the future, which is at least, but not limited to, 12 months from the end of the reporting period; and
- The determination of whether it is likely that future economic benefits from exploration and evaluation expenditures are likely either from future exploitation or sale or where activities have not reached a stage which permits a reasonable assessment of the existence of reserves.

Estimates

- Recoverability of exploration and evaluation assets; and
- Unrecognized deferred income tax assets.

4. Accounting Standards Issued But Not Yet Effective

Certain pronouncements have been issued by the IASB or the IFRS Interpretations Committee that are mandatory for accounting years beginning on or after January 1, 2024 or later years. Management does not believe the adoption of these future standards will have a material impact on the Company's condensed consolidated financial statements.

5. Exploration and Evaluation Assets

(a) Nevada, USA Properties

(i) Silver Peak (Nivloc) Property, Esmeralda County

In September 2007, the Company established its interest in the Silver Peak (Nivloc) Property, located in Esmeralda County, Nevada, by acquiring 9 unpatented claims for US\$75,000 and 110,000 shares.

During fiscal 2011, an additional 95 contiguous claims (the "Additional Claims") were staked and recorded.

In February 2011, and amended May 22, 2012, the Company executed an Option and Joint Venture Agreement, with Silver Reserve Corp. ("SRC"), pursuant to which the Company acquired the right to purchase up to 85% interest in 18 unpatented lode claims (the "NL Extension Claims") contiguous with and surrounding the Company's existing Silver Peak (Nivloc) Property.

The Company acquired the interest in the NL Extension Claims by making cash payments of US\$350,000 and by issuing 1,925,000 shares over a period of five years as follows:

	Cash (US\$)	Common shares
Upon execution of Letter of Intent (paid)	5,000	—

Upon receipt of TSX Venture approval (paid and issued)	15,000	275,000
On or before September 15, 2011 (paid and issued)	35,000	300,000

On or before September 15, 2015 (paid and issued)	100,000	350,000
	350,000	1,925,000

On October 14, 2015, the Company made the final payment of US\$100,000 to SRC, thereby acquiring an 85% undivided interest in the Silver Peak (Nivloc) Property. The Company registered this 85% undivided interest in the Silver Peak (Nivloc) Property with the US Bureau of Land Management (the "US BLM") and Esmeralda County, Nevada.

Following the Company's completion of a positive feasibility study, the Silver Peak (Nivloc) Property was developed on a joint venture basis where SRC had the right to contribute to the development of the 122 claim Silver Peak (Nivloc) Property and retained a 15% interest therein. On January 7, 2016, the Company executed a Sale and Purchase Agreement, including an Option to Purchase Royalty Interest (the "Agreement"), to acquire SRC's remaining interests in the Silver Peak (Nivloc) Property (the "Transaction"). These interests include the following:

- (i) All rights, titles and interests owned by SRC in and to the remaining undivided 15% interest in and to the NL Extension Claims, and any and all licenses and permits pertaining thereto; and
- (ii) The sole and exclusive right and option to acquire a 15% interest in the 104 claims held by the Company (the "IMMC Claims").

Pursuant to the Agreement, the Company paid SRC US\$120,000 for the Silver Peak (Nivloc) Property interests detailed above (the "Silver Peak (Nivloc) Property Interests"), and SRC retained a royalty interest of 2% of Net Smelter Returns ("NSR") from the NL Extension Claims and the IMMC Claims (the "Royalty Interest").

(b) Credit risk

Financial instruments that potentially subject the Company to a concentration of credit risk consist primarily of cash. The Company limits its exposure to credit loss by placing its cash with high credit quality financial institutions. The carrying amount of financial assets represents the maximum credit exposure.

(c) Interest rate risk

The Company is not exposed to interest rate risk because its loans payable bear interest at a fixed interest rate. Fluctuations in interest rates do not have a significant impact on the Company's operations.

(d) Liquidity risk

Liquidity risk is the risk that the Company is unable to meet its financial obligations as they come due. As at June 30, 2024, the Company has a working capital deficit of \$506,058 (December 31, 2023 - \$466,517). The Company manages this risk by evaluating current and expected liquidity requirements and seeking financing arrangements as necessary.

(e) Currency risk

The functional currency of the Company is the Canadian dollar and the functional currency of the Company's wholly-owned subsidiary is the United States ("US") dollar. Currency risk is the risk to the Company's earnings that arises from fluctuations of foreign exchange rates and the degree of volatility of these rates. The Company operates in Canada and the US and a portion of the Company's expenditures are incurred in US dollars. A significant change in currency exchange rates between the Canadian and US currencies could have an effect on the Company's results of operations, financial position or cash flows. The Company does not use derivative instruments to reduce its exposure to foreign currency risk. As at June 30, 2024, the Company has cash on deposit totaling US\$1,182 (December 31, 2023 - US\$1,083). Cash in United States dollars has been translated to Canadian dollars at a rate of Cdn\$1.3687 (December 31, 2023 - Cdn\$1.322) per US dollar. As the Company has limited transactions and balances denominated in currencies other than its functional currency, the Company does not have material currency risk.
